

Face Down

Killer Be Killed

Fraud, you're not a friend to me
A drag on society
A tool of bureaucracy
And I can barely tolerate you fuckers around me

Nightstick to the fucking face
How does that shit fucking taste?
Just to survive is never enough
We need to call the bluff

Disarray in the nation
Disarray, degradation

Face down
Face down
Face down
To the ground

Brutality against brutality
The real face of the enemy
Keep them pigs away from me
Abuse of power and authority

Blacklisted calamity
Forceful rape entity
Devils in uniform
You'll wish you were never born

Disarray in the nation
Disarray, degradation

Face down
Face down
Face down
To the ground

Menace to society
Cop-shoot-cop mentality
A cancer of a broken land
Traitor to the common man
Invaders of your privacy
Nothing is sacred reality

Kill or be killed

Wrong it is, where this started
Wrong it is, from the beginning

Bleed from the eyes, rot from the inside out
Inverted skies hide in the underground
