Forbidden fire

Killer Be Killed

Music is sacred, it's for everyone
Can not let your government call them forbidden songs

Born from a generation in defiance
You can not kill the beauty which your soul sings

Catch the forbidden fire
Revolution's on the wire
Scream the forbidden fire
Stronger than who stood before us

War destroys and music saves
Onward we prevail
Nobody tells you you're a slave
Stronger than who came before us
War destroys and music saves
Onward we prevail
No one tells you you're a slave
Onward we prevail

Desire is sacred, inside you and me
The bond we feel universally

This noise is our salvation
Confronting this defamation

Catch the forbidden fire
Revolution's on the wire
Scream the forbidden fire
Stronger than who stood before us

War destroys and music saves
Onward we prevail
Nobody tells you you're a slave
Stronger than who came before us
War destroys and music saves
Onward we prevail
No one tells you you're a slave
Onward we prevail
