# I.E.D.

**Killer Be Killed**

Crosses and graveyards
Survival nuclear
Suicidal lifestyle
Extremist in denial

Invade the islands
Incite violence
Fight for higher power
Cease fire, cease fire

Dig up the mines
Dig with your fists
Dig up the mines
Forever resist

Improvised explosive device
Blowing to the burning sky

No lesson learned, fell on our backs
No lesson learned, another attack

Improvised explosive device
Blowing to the burning sky

Those trenches are inserted in your hearts and souls
The ghost of the desert's where I roam

Afflicted and tormented, by fire I'm reborn
In this apocalypse lives are torn

Breathe in the virus, puss runs from your eyelids
Fundamental teachings mutilate human beings

Invade the islands
Incite violence
Fight for higher power
Cease fire, cease fire

The desert burns, I scream in desperation
We are fatherless sons of a nation

Improvised explosive device
Blowing to the burning sky

Statues falling, chaos rise
Terror calling your demise

Chaos rise
