

# A Light in a Darkened World

Killswitch Engage

I've seen so much corruption  
And it's hard to endure  
Living on greed and positions  
Is this what were dieing for

Now choose this day  
Who you will serve  
To be the light  
In the darkened world

Many are willing  
To only live for themselves  
Turning away from morality  
Nothing can turn you now

Now choose this day  
Who you will serve  
To be the light  
In a darkened world

You fail us all  
And the waters beginning to rise  
Become the light  
In this darkened world

This is destiny  
The choice is now defined  
No more deception  
Now days will charm

It's in your hand's  
It's in your hand's

Now choose this day  
Who you will serve  
To be the light  
In a darkened world

It's in your hand's (it's in your hand's)  
It's in your hand's (your hand's)  
Become the light  
In this darkened world
