

Define Love

Killswitch Engage

This venom spreads like infection
Poison our minds with misconceptions
The division of society
All in the name of ideology

Who are we to judge
How to define love

Love is not manipulation to control
All we've got, illuminating our souls
Who are we to judge and condescend
Compassion never leads to intolerance

Take a look at yourself and realize
Worth cannot be reduced or compromised

Who are we to judge
How to define love
Blinded by intolerance

Who can judge another's struggle, another's pain
Another's strength to overcome, comprehend and maintain

But you just can't see it
And it's hard to believe it
The way that you define love, is to lose your own

Who are we to judge
How to define love
Who are we to judge love
