## World's Disease

Let¼s go and come into my mind It¼s the way where you can spread Your seeds under the ashes Your skin under the ashes Predestination is domination It¼s the way that you can take Predestination is domination We fall with world¼s disease Groan turns black in your sorrow We¼ll fight like motherfuckers in the night The devils wanna to play with us Predestination is domination It4s the way that you can take Predestination is domination We fall with world¼s disease Groan turns black in your suffer We¼ll fight like motherfuckers in the night The devils wanna to play with us We¼ll never stop to fight with our guns The devils wanna to play with us Here is the world¼s disease It¼s time to devil¼s creation Here is the world<sup>1</sup>/<sub>4</sub>s disease It4s time to devil4s reflection We¼ll fight like motherfuckers in the night The devils wanna to play with us We¼ll never stop to fight with our guns The devils wanna to play with us
