

Cut Em Off

KILLY

Articuno on my wrist so I'm flyer
Rocking the runaway attire
My youngin a shooter for hire
Pop up em on Michael Myers
Came out the belly of the beast
Bloody diamonds my teeth
30mg Ima geek
Neva ever been a geek

I'm with my whoadie so I'm with whatever no matter the weather I'm rolling
Three secret letters the top of totem
I charge 15 for a 16 bar open
Walk in the room and I capture the moment
Bro got a broom to sweep all our opponents
They hate when I flex call me KILLY Hulk hogan
Keep one in the head, even when I'm recording

Issey Miyake it cover my hands
With all three of my eyes I be watching my back
I caught a snake and I severed its head
Cut em right off they exist in the past
Never had luck not relying chance
Showed so much love that I never got back
Stuck in a race, I'm not doing no laps
I'm not coming in last Ima buy the whole track

I want the face if she can't arch her back
Cut to the chase, got no time for the cap
Right hand on her cat, left on the wheel
My mind on the racks, I'm grinding for real

Pull up in something cost more than ya deal
Clarity stones, not a cloud in my sky
Straight out the east. Still keeping my ties
Charity work, providing the fye

Breaking the curse
I'm just taking what's mine
Walking in with a limp (yeah)
Never play for me a simp (nah)
She kiss diamonds wit her a lip
She gon lick cause it's lit
Got vendetta Ima win yea
Been a trendsetter since a kid
My diamonds, they mere revenge (Yeah)
If I'm playin', I'm playin' to win

Issey Miyake it cover my hands
With all three of my eyes I be watching my back
I caught a snake and I severed its head
Cut em right off they exist in the past
Never had luck not relying chance
Showed so much love that I never got back
Stuck in a race, I'm not doing no laps
I'm not coming in last Ima buy the whole track
