Darkest Day

KILLY

Let me beat it up like Jaegen

Went and counted all my demons, there was one for every day (Day, day, day)
Kept the good ones on my shoulder, drop the other ones away (Away, away)
Part of me craves revenge, believe or not, I am human
It's too late to make amends, I left it all a ruin (Yeah)

Would you stay with me on my darkest day? (Would you stay?)
Would you stay with me on my darkest day? (Darkest day)
Would you stay with me on my darkest day-ay-ay?
Would you stay with me on my darkest day?

Yeah, check the time, lit feel at 1 AM on the side
Twenty milligram, she wanna feel alive
Wanna feel the high, wanna cross the line, trip to paradise
I know things ain't been perfect
I watched you beg for mercy
Lately, eyes just been sinking
We still stayed 'til the ending
I wonder where I would end up if I don't end up with you
It's true

There is not a dream we share
You seem so unaware
I turn to move in close and you turn to a ghost

Would you stay with me on my darkest day? (Would you stay?)
Would you stay with me on my darkest day? (Darkest day)
Would you stay with me on my darkest day-ay-ay?
Would you stay with me on my darkest day?

Would you stay?
Darkest day
Darkest day
Would you stay?
Darkest day
Would you stay with me on my-
Darkest day
