

## Destiny

KILLY

Whatever goes around  
Will always come around (Down, down, down)  
Whatever goes around  
Will always come around (Down, down, down)

You know what I'm about  
Decreases my amounts  
A lot to talk about  
Trials of the paper route  
Me, I'm a misfit  
I can admit it  
You picked your poison  
You might dick shit  
To time to realize  
Seeing through the evil eyes  
Why you have to hide?  
Demons pretty is disguise  
Grass is always greener from the other side  
Outside looking at perceptions of beautiful thing  
Shit set sail they expecting me to sink (Sink)  
Ghost in the shell could disappear in a blink  
They only show you love when it's just too late  
They only show you love when it's just too late  
Lose inside a hole, people turn around the faith (People turn t  
he faith)  
New problems everyday  
Rosie got a kid, tryin' to send him away  
Promise at the top I will save him a place  
If I fail it's the snakes, 165, but I hold a lot of weight  
Know to come prepared, not prepared for the fame (For the fame)  
What a shame  
Why someday where's no look at me the same  
New faces know me, never heard my name  
Seen some crazy things had to lurk away  
So much changed, don't let the real fade away

Whatever goes around  
Will always come around (Down, down, down)  
Whatever goes around  
Will always come around (Down, down, down)  
Whatever goes around  
Will always come around (Down, down, down)  
Whatever goes around  
Will always come around (Down, down, down)
