

# DON'T BOTHER

KILLY

I get guap that's a fact  
Imma do it all for the gang  
Feel so fly I get real high paralyze smoke green Peter Pan  
Fell in love with the racks  
Fell in love with the racks  
Ice in my veins but my head so hot don't bother me  
Cough up clear got a doublecup all in my arteries  
The ah-ee sing if I make that ring it's a harmony  
She want a star boy I could tell you all about astrology

Don't bother me  
No don't bother me  
No no no no nobody stopping me  
Don't bother me  
No don't bother me  
No no no no nobody stopping me

Let the truth be told this is not like before  
I'm not the man you known  
You betta let him go  
Went through it all and more  
That was years ago  
I was a fly on the wall  
So dying to ball  
Stayed down till the come up kept my cool and I asked and got it all  
Plug pull up it's a wrap  
Got the spot in a trance  
Took your hoe, gave her right back  
Had her face in my lap  
Oops my mistake uh my bad  
I ain't goin out sad  
I ain't going out bad  
Kill la kill got the last laugh  
You could never not understand  
This not by chance

Don't bother me (ye ye ye)  
Don't call on me (ye ye ye)  
They took a part of me (ye ye ye)  
And left a hollow me (ye ye ye)  
Don't bother me (ye ye ye)  
Don't bother me (ye ye ye)  
Don't bother me (ye ye ye)  
Don't bother me  
I'm all I need
