KILLY

I can't show no love  
Cus only us  
Nobody except for us, us  
Nobody except for us, us

I can't show no love  
Cus only us  
Nobody except for us, us  
Nobody except for us

I stay pouring up, I don't care no more  
Pour a four in the four and spill it on the floor  
After all them years I can still remember more  
Don't seem the same but I'm still the same as before  
You still in yesterday, you still broke  
They don't want the flame or the smoke  
I ain't ask for fame, just zeros  
So many changed, got no hope

Shoutout to the ones that are praying for me  
I remember days I ain't never knew sleep  
Thinking about a stage far away just the dream  
In the hallway staircase spilling bleach  
Under the sun you'll only find one of me  
Holding my tongue, everything lovely  
How could I run? I can't run from me  
Been the same since the jump, since a bungee  
Running with the gargoyles, fucking up the night  
He got smoked like a Marlboro, he was never seen  
Take a trip to Okinawa, finding peace, my mind at ease  
I can't fold like empanadas, you walk that road, don't blame in me  
Your girl on my phone I was on the road up and down on Kennedy  
My bag stuck on shutter island  
I knew it was in due timing  
It's fine I guess just seep shining  
The opps gonna pledge alliance  
I was on the road, I was on my own when no-one else could find us

I can't show no love  
Cus only us  
Nobody except for us, us  
Nobody except for us  
(Show no love, love)

I can't show no love  
Cus only us  
Nobody except for us, us  
Nobody except for us
