

Eye For An Eye

KILLY

Good morning

Go quick trip on the red out
She stayed with me for the weekend (Me)
Wine live life on the wild side
I live the mind like a Jedi (Hey)
Beat it up it be like fight night
Blast in the cap going night, night
Talk tough, don't get tied down
I fought, I believe that we doubled
Say what you want but I do what I want no problems
Of course I'ma flaunt when all I know is nothing
Left me in the past, and came right back, she bluffin'
Car full of drank, I'm smoking on stank, need something

All the lies is above it
I don' her enough
I trip, she dripped faucets
She trips, caught at the drop
Broski he choppin' the onions, you know he serve it hot
You know this ain't around
Skirt the ghost, and I'm gone
Only new face around me is a Audemar
A city got no more lean, cause I bought it all
Tryin' to get the drop on me like a out of box
Stay in the cut, lowkey
This for all of us

Go quick trip on the red out
She stayed with me for the weekend (Me)
Wine live life on the wild side
I live the mind like a Jedi (Hey)
Beat it up it be like fight night
Blast in the cap going night, night
Talk tough, don't get tied down
I fought, I believe that we doubled (Killy)
Say what you want but I do what I want no problems (Ay)
Of course I'ma flaunt when all I know is nothing (Nothing)
Left me in the past, and came right back, she bluffin' (Bluffin'
')
Car full of drank, I'm smoking on stank, need something
(Yeah, yeah)

Oh, oh
