

## Fireflies (Outro)

KILLY

There's one thing I can tell you for certain  
Lately, I been searchin' for my purpose  
Will you show me where the earth ends?  
Will you show me where the earth ends?  
One thing I can tell you for certain  
Lately, I been searchin' for my purpose  
Will you show me where the earth ends? (will you?)  
Will you show me where the earth ends?  
One thing I can tell you for certain (one thing)  
Lately, I been searchin' for my purpose (purpose)  
Will you show me where the earth ends? (will you)  
Will you show me where the earth ends? (show me)

I built a hundred likes, flew a hundred skies  
Wasn't fitted size, my chains shine like fireflies  
I smoke that inside, I smoke to come alive, huh  
Everything is do or die  
When you cross that line, no time to decide  
Step up in my mind, you might lose your life  
You might lose your life, open up your mind  
Open up your eyes, trip to paradise  
Shawty never lies, you gon' roll the dice  
Trip to paradise, trip to paradise

There's one thing I can tell you for certain  
Lately, I been searchin' for my purpose  
Will you show me where the earth ends? (will you?)  
Will you show me where the earth ends?  
One thing I can tell you for certain (one thing)  
Lately, I been searchin' for my purpose (purpose)  
Will you show me where the earth ends? (will you?)  
Will you show me where the earth ends? (show me)

Trip to paradise
