

# FLINCH

KILLY

Diamonds they hit make you flinch  
Bet against me you get rinsed  
Don't even know you exist  
Choppa gon blow you a kiss  
You can get cut out the picture  
He wanna stay out the mix

Now they wanna show me love  
Now they wanna show me love  
Now they wanna show me love  
Now they wanna show me love

I'm a rockstar but I'm still shy  
She don't want me cause I make her cry  
She fuck on me cause I change her life  
Don't feel high I took two  
Book a flight change the view  
I get fly just to cool  
I can't fake what is true  
Money up front don't act brand new  
Diamonds crushed up and my cup went blue  
I'm in the cut man I keep my cool  
She wanna see me so she flew  
This not chance this not fluke  
Got big plans for me and you  
We can dance on the moon  
I'm the man but that you knew  
I can't feel no more ah  
All my demons pour up  
I can't keep my chains tucked  
They want me to change up  
Need my space just let me be  
So much smoke up in the V  
Made mistakes and paid the fee  
But the truth will set you free

Diamonds they hit make u flinch  
Bet against me you get rinsed  
I don't even know you exist  
Something gon blow you a kiss  
You can get cut out the picture  
He wanna stay out the mix

Now they wanna show me love  
Now they wanna show me love  
Now they wanna show me love  
Now they wanna show me love
