

FOREVER

KILLY

She from the island she shaking that shit
Back on the island they hated the kid
Now if they hating we upping the glick
She doing tricks tryna get me to trick
I'm at the show
Jump in the pit
I'm with cros, I'm with bros, I'm saying fuck all the industry shit
Ice out the voice in my head on my chain
Pour out my cup
Racks down the drain
Fuck em if they do not see me the same
I put in the pain, it drove me insane
Rise to the top it hurt they brain
Brought the Benz to the block wearing all my chains
Tell what it is
Not what it ain't
I'm standing on biz
Running the race

Been 7 years and I'm still here Mr Killy Killy Genna Genna
Need a ride or die real bad bitch that gon shoot shit Bayonetta
You could have this shit for a lil while but I need all this forever
You could have this shit for a lil while but I need all this forever

Been doing this for the S, we know best, nothing less
If I say it I'ma say it straight face I'ma say that shit with my chest
Open it up, mix it up
I'ma sit back let it take a effect
I had to wake up get my cake up
I been places I shouldn't have been
I had to wake up use my voice
This infatuation with the pressure
Got me rock hard heavy metal
Put a red dot to they temple
There's no infiltrating my mental
She finesse I can't let her
Talking to Victor make my head hurt cause he put the V in vendetta

Been 7 years and I'm still here Mr Killy Killy Genna Genna
Need a ride or die real bad bitch that gon shoot shit Bayonetta
You could have this shit for a lil while but I need all this forever
You could have this shit for a lil while but I need all this forever

You can have this shit for a lil while but I need all this forever
And ever , and ever and ever
You can have this shit for a lil while but I need all this forever
And ever , and ever and ever
You can have this shit for a lil while but I need all this forever

Up 'til the sunrise I'm in my right mind
Living in this fast life. I had to take time
Chasing after bright lights after fireflies
Had to go and make mine had to take mine

Had to go and take

Take take

Had to go and take

Take take

On my waist, G-lock 28
And we don't play
We take your face
Come and take your soul
