

# GLEE

KILLY

Thief in the night I'm not leaving a trace  
Ima get to the bag cause I swear it's a race  
And I'm pushing the pace got me pushing the bass  
Tell the bitches pull up if I push up today  
If they talking on bro Ima take off their face  
Bet I reach for the waist ima air out the place  
Ima pull and glee  
Pull up and glee  
Canada Goose and I rock the Monclee  
I speak my truth so it's setting me free  
2000 a tooth I could teach you to freeze  
2015 had Evisu my jeans  
Rockstar got metal and rips at the seams  
Put on my people I do it with ease  
Ima star in the sky and I'm ready to glee  
I got my hand on them Rickity racks  
I'm going crazy  
Do it for me and I do it for gang  
I'm going crazy  
I pour like \$800 all in a drank  
I get lazy  
If I go out I go out with a bang

I don't give a fuck what you make  
I don't give a fuck what you think  
I put obsidian stones in the face  
I do whatever whatever it takes  
I left my bitch I got places to be  
I got people to meet  
I got places to see  
Got a shooter with me and he do it for free  
And I'm paying the fee  
And I'm raising my fee  
And I'm raising my stock  
Back to the east I'm still bending the block  
This shit authentic it came off the top  
This shit was written I follow the plot  
Get you shot  
We up the K  
Pouring drop sip Easter pink  
She wanna fuck her pussy pink  
Diamond crushed up in the face  
Count these racks like everyday  
Bring it back like everyday  
What you thought is you okay?  
What you thought is you okay?

Thief in the night I'm not leaving a trace  
Ima get to the bag cause I swear it's a race  
And I'm pushing the pace got me pushing the bass  
Tell the bitches pull up if I push up today  
If they talking on bro Ima take off their face  
Bet I reach for the waist ima air out the place  
Ima pull and glee  
Pull up and glee  
Canada Goose and I rock the Monclee  
I speak my truth so it's setting me free

2000 a tooth I could teach you to freeze  
2015 had Elvis my jeans  
Big Kill La Kill I can teach you to glow  
She want my government name  
I told her no!
