

GRAVITY

KILLY

All these people I avoided
The throne I got appointed
Chain 20 pointers
Came to set the order

I've been holding on holding on to my sanity
Now I got em stuck in my gravity

I'm going hard from like Sunday to Sunday
Came out the bricks , now I walk
In the runaway
I had a dream but I ain't have a hunnid
Kept it 100 it came in abundance
I walk with the demon he came in with something
Don't play percussion but he bringing all the drums in

It's up it's stuck Bentley coup color butter cup
Run it up 1 of 1 not the runner up
You can't come to this party
You can't come thru come thru
I put Nunavut on my wrist and it's shining
Inukshuk on my chain don't get blinded
You can't come thru this party
You can't come thru come thru

I'm with these hoes like Malcolm in the middle
Said I got it I'ma get em
They want my soul but I could never let em
My city crazy Armageddon
I put the voice in my head on my pendant
Block out the noise all the talks I'ma dead it
I brought the Benz to the block I'ma bend it

This my truth I'm just living ha ha

Ain't seen the booth in a minute
Ain't switch the view in a minute
Locked in the crib, really been feeling difference
Life without twin I been missing

My presence hit you like a present
I'm someone you should invest in
Rips in my clothes like a peasant
Keep the fake far away need repellent

Rolling up block out the noise
The way I'm pulling up I'm
So paranoid
What I know cannot fill this void
What I know can't fill my Void

It's up it's stuck Bentley coup color butter cup
Run it up 1 of 1 not the runner up
You can't come to this party
You can't come thru come thru
I put Nunavut on my wrist and it's shining
Inukshuk on my chain don't get blinded

You can't come thru this party
You can't come thru come thru
