

HUH HUH

KILLY

Not kicking the cup I kiss the cup I fall in love
Fuck up the city touch down then it's up
Middle finger fuck the trigger squeeze it til it's done
Money sex drugs I need everything above
Ha ha ha ha
She put Molly on her tongue (Want the what?)
She put white all on her gums
Swear I almost did the race and hit the run
Pray I beat my case got caught up with my gun

Huh huh I just played the cards I'm dealt
Huh huh almost went and lost myself
Huh huh we get shit right off the shelf
Huh huh nah it's never been no drought
Send the drop we lift em up
Can't kick the cup I kiss the cup
If they wanna flex I tell em muscle up
Dead mans in my hands I count em up
I'm in a 63 AMG and then I'm gone
Blue flames stomp on the gas out the exhaust
Guns and roses ya you know we roll and rock
Rock and roll pay the price they take ya top
I got the clarity stones, I'm better off all alone

I never trip bout a bitch I never trip bout a hoe
See my bro in my dreams I talk to ghost
Hit the road on the go we take ya soul
Huh huh 24s we pulling up
Pouring drop all in my cup huh huh
If it's up then it's stuck huh huh
Where the fuck my cyber truck huh huh

Not kicking the cup I kiss the cup I fall in love
Fuck up the city touch down then it's up
Middle finger fuck the trigger squeeze it til it's done
Money sex drugs I need everything above
