KILLY

Protect your thoughts, you're sending out a message
Every L I took it was just a lesson
I'm not stressing I don't even feel the tension
It's a part of the motion, they forgot to mention
Blacked out AMG, my youngins steady putting dents in

Baby I can get you in right now, with a surgeon
In the tropics I'm getting high been going on excursions
We erasing time let me tell you its encouraging
All these racks in my pants really came from purging
I'm a misfit, hug ya lane you can't merge in
Hit the kill switch, going insane and I'm lurking
RIP my brother I can never stop hurting

Love my bro so I need everything times two
Riding low, 24s, yeah we slide through
She drop it low, brought her home, didn't try to
You dropped it low, never show, we gonn' find you

For mr fi fy fo shake ya hand and slime you
I walk this lonely road, with these wings I fly through
I got browns, I got blues, with a 42 in my juice
I'm uptown with the views, living life that I choose

I'm riding right or wrong, that's nothing new
Don't piss me off I put you on the news
I'm piss drunk drowning in the booze
I'm pissed off looking for the truth

Protect your thoughts, you're sending out a message
Every L I took it was just a lesson
I'm not stressing I don't even feel the tension
It's a part of the motion, they forgot to mention
Blacked out AMG, my youngins steady putting dents in

Baby I can get you in right now, with a surgeon
In the tropics I'm getting high been going on excursions
We erasing time let me tell you its encouraging
