

Bad bitch with a bad physique, she got double D's  
I break it down and pass the meat, and she suck me sleep  
I can introduce you how to survive through this lifestyle (Life style)  
Drippin' in expensive linens, different type of textiles  
Stuck up in my gravity, you're caught up in a hex now

She say, "You make me complete"  
I tell her keep it discrete  
Know these racks don't fold, decrease  
I just get the bands increase  
She stays all on me like a flea  
Spend that shit and make it back  
I burned her back like third degree

I'm a demon in a Hellcat (Swerve)  
I been gettin' busy since a rugrat  
And I'm speedin', I love to feel it  
She don't want a bag [?] secrets  
[?] at the door and I told my bitch I'm anemic  
Drowning in the coupe without you, feel like submarining  
If you in my passenger, you bet we take the scenic  
My life like a movie, every day is a new scene, yeah  
Plotting on the [?], I feel like Luciano  
She gon' do whatever I say, stuck in my [?]  
Baby, let me ice you out, then we could be a lightshow  
Callin' me the most but you still callin' on my iPhone
