

# Lift Off

KILLY

Last name ever  
First name greatest  
Number one contender according to speculation  
Shut the dead weight off, call amputated  
My price is inflating like the size of my stages  
Lift off  
Too memorized and fascinated  
Came a long way the journey it been amazing  
Number 43 was waiting down at the station  
My old vacation was the falls for a day trip (Ha, ha, ha)  
Shake them chains, they expectin' me to move different (Huh)  
Same building yeah, but the view different (Huh)  
I got new woman, new ice, new clothes (Ye)  
Huh, and I think I've found a loop hole  
People printin' on my tail, hot pursuit though  
Lotta open hands comin' by with zero (Yeah)  
Feel like De Niro and casino (Yeah)  
I know things you could never find on Google  
They copy paste this blueprint it's crucial  
Past year I've been putting names on tombstones, and building group homes  
My city too cold  
I'm like Zuko if he mastered every element  
A year and some change, same stripes as the veterans  
This industry made me opposite of generous  
Young degenerates, G's the gentleman  
This a secret all we ask is your trust (Trust)  
Break your bread, lucky if I'll leave a crumb (A crumb)  
Under pressure guaranteed you'd succumb  
All the pressure round me make me come for the game up for fun,  
then finesse it out the funds  
Fuck I look like (Like, like, like)

I can't keep mind of time  
Dripping like it gon' be bliss
