

LOVE PRISON

KILLY

Never give a rifle to a psycho
You gon need the bible for survival
Pull up with the mac-10 we gon drop them
I'm a psychopath when we are not friends

Welcome to a place where there's no escape love prisoner
Push to a faraway place don't look back and zero return

She took my heart (he-hey)
I took her soul
But after dark, midnight
(He-hey)
My eyes closed
(He-hey)
It's taking tolls
Around the globe
My world so cold
Wipe ya nose

10 ten toes down in, (in my city)
97 been psycho since
Look at my predicament
The condition they left me in
Left me in

Welcome to a place where there's no escape love prisoner
Push to a faraway place don't look back and zero return
Welcome to a place where there's no escape love prisoner
Push to a faraway place don't look back and zero return
