KILLY

I can't celebrate no more cause it don't hit the same
I can't medicate this pain it'll never go away
You was always by my side for every accolade
Beat the odds cause where we're from we left and spread our wings
They say once a chapter ends another one begins
But I got trouble tryna envision it without my twin
Trouble tryna comprehend that this is where it ends
I'd trade it all to have you back and do this shit again

Made your mark it hurts my heart could never be the same
Step out the car from afar see purple in the rain
1 of 1 I'm in the cut gave me some angel wings
If it was up then it's stuck cause that's what you would say
They talking on your name
I'm leaving with they face
I'm going crazy crazy
It's the only way
The live forever way
I pray for better days
Promise that your child can count on me for anything

This a letter to my dawg I know he listening
For my bro Imma ball keep on glistening
I been hearing this and that this shit is sickening
If we had the chance to run it back wouldn't do it differently

For my bro Imma ball this a letter to my dawg had to put it in
a song
For my bro Imma ball this a letter to my dawg had to put it in
a song
For my bro Imma ball this a letter to my dawg had to put it in
a song
For my bro Imma ball this a letter to my dawg had to put it in
a song
