

No Saving

KILLY

(I said)
No there's no saving me
(I said)
No there's no saving
I don't care if they care
Give a fuck disappear
Not the one to feel fear
I can really see it clear

(I said)
No there's no saving me
(I said)
No there's no saving

I don't care if they care
Give a fuck disappear
Not the one to feel fear
I can really see it clear

Riding in the city yah, in a drop top
Whole world on my shoulders and can't even feel none
Hit the crib like a cinema, this life a movie role
Fuckin a bitch like layup pass her off finger roll
We got the money and lay up, if that's my dawg say no more
Off these percs can't stay up but I can fuck till tomorrow
If I like, Ima wife, if I see potential
Shorty know I love her different cuz I sent her crypto
Got a Vogue model body she don't need to tip toe
In the dance, caught him
Slippin Panic at the disco
Nose wipe, sicko
Gtr nismo
Had to separate the real from the superficial

Naw I never wanted fame, had dreams of getting richer
You remain the same; the way they see you different
Whenever I wanted change, took risks I wasn't wishing
Started with a premonition, had to switch up my condition
Till I'm gone

(I said)
No there's no saving me
(I said)
No there's no saving
I don't care if they care
Give a fuck disappear
Not the one to feel fear
I can really see it clear
