

Not By Chance

KILLY

This shit not by chance
This shit not by chance (Not by chance)
Huh, huh
You can never not understand
Evisu jeans on my ass (What)
Double CC's in the class
Fifty-five hoes like Durant
This shit not by chance
This shit not by chance
Better yet girl how you live?
Double down take that risk
Boulevard came for the bricks
Eighty five dollar ezip
AMG hit the strip (Strip)
Everything lit for the kid

Have so many lies I live
Suit and tie white bitch
Like before in a lick
Next day post for a pic-ture
Yeah, I did that shit
2019 ride by in a fis-cure
Never forget, I forget about paying my dues, and pay homage (Huh)
Don't get lost in the risk
Teleport gun I'm off in a rift (I'm gone, ha, ha)
Yeah, what
Got the last laugh
Me or yourself, who are you mad at?
Roaming the woods, and don't pass that
You just invented the past tense
No sleeves on we take naps
Spend them racks, don't save that
You gon' make it back
This shit not by chance
We gon' rise against
Stay in between the wrecks
Up like ceiling fan (Fan)
Can't believe it then
Pray this shit never end

This shit not by chance
This shit not by chance (Not by chance)
Huh, huh
You can never not understand
Evisu jeans on my ass (What)
Double CC's in the class
Fifty-five hoes like Durant
This shit not by chance
This shit not by chance
Better yet girl how you live?
Double down take that risk
Boulevard came for the bricks
Eighty five dollar ezip
AMG hit the strip (Strip)
Everything lit for the kid
