

Hey

Put that shit on everything, I don't wanna ever change  
Love me but you doubted me, knew it since the beginning  
We got common enemies, depend on you, depend on me  
Aura and my energy, the evil is serenity  
Put that shit on everything, I don't wanna ever change  
Love me but you doubted me, knew it since the beginning  
We got common enemies, depend on you, depend on me  
Aura and my energy, the evil is serenity

First year as a rookie, made my, myself a boss  
If I wanna go out, I'ma, I'ma floss, aw  
Sacrificed the love, but I, I never lost  
Make 'em finish my thoughts and watch it come alive  
Been around the world, can't find a peace of mind  
I tried everything it takes to feel alright  
Somehow, you still occupy my mind  
Somehow, this was all by design

Put that shit on everything, I don't wanna ever change  
Love me but you doubted me, knew it since the beginning  
We got common enemies, depend on you, depend on me  
Aura and my energy, the evil is serenity  
Put that shit on everything, I don't wanna ever change

Aura and my energy, the evil is serenity
