

Rollin' double R, got the car keys  
Look up at the stars in the starstream  
Chasin' all the money and deposits (bands)  
Countin' up my problems, cannot solve 'em (yeah)  
Lil baby I can't do attachment, damn  
'Cause my life I'm livin' so dramatic, yeah  
Pull up spaceship, crash landing (yeah)  
The way they look at me is so astounding (what?)

I swear I came from under the planet (hey)  
My first video was the mountain  
Second video Henny fountains (hey)  
Lost it in LA, no romancin' (yeah)  
Parties in the mansion (what?)  
Bright lights come with attention  
And attention builds tension  
Learned this lesson as an adolescent  
Big twenty, so ready  
Say they ready, they ain't really ready  
Big twenty, so ready  
Say they ready, they ain't really ready (what?)
