

Top Down

KILLY

Knew life's not fair
But you really think I cared
Stayed on my grind
Black tints on the whip no glare
Back on my bull
So all I see is red
I take control
Baby girl I just want head

My name saved in ya phone as heartless
You good today but the nights the longest
Only god can judge all these diamonds flawless

So I ride it with the top down
Riding round the city with my top down
She ain't wanna get litty till we popped out
Put my heart in quarantine love lock down
Driving all these bitches so crazy they doing laps now

Yea this toxic love so crazy
She don't give fuck bout a AP
Won't give it up for no one
Least that's what she said till she met me
300 grams my neckpiece
Wear my heart on the sleeve my tech fleece
Still got 99 problems
Put em all in my back like Gretzky

Lying on the team get messy
Know too many resent me
Don't cry on my shirt it's Fendi
3 point step back hesi splash
I'm gone
Once I'm gone know I'm never looking back
See what I'm on, and they know they not on that
Do what I want, even tho I watch my back

I still ride it with the top down
Riding round my city with the top down
She ain't wanna get litty till we popped out
Put my heart in quarantine love lock down
Driving all these bitches so crazy they doing laps now

If I see her
I'ma thief her
If I go deeper
Coral reefa
Took her to Geneva
My señorita
Once I hit this reefa then I leave her

So I ride it with the top down
Riding round the city with the top down
I ain't for none of these bitches tear my heart out
I can't take a picture with a bop you get cropped out
