

Walking along  
Riding along  
In my brand new car

Stuck passing in the hallways  
Always waiting for someday  
Do you agree?  
Why don't you tell me what it takes to captivate you  
I know all your games I try to play cool and  
I could stare right into you  
Just wondering what else have we got to lose  
Guess I just ignore the answers  
Still hoping that there's more we're after  
It's nothing just  
I'm curious to ask  
Is there something more to that?

'Cause when you're in the room  
I can't talk  
I'm tripping over laces  
Can't walk  
Stumbling over answers  
My fault  
So preteen but that's what you do to me  
I can't escape the fact that I  
Can't see myself giving it the guts to try  
'Cause when I think it's time  
That's when I find you're closed about it  
Some how we all settle for average  
But if we took it slowly  
We could make a point to not be lonely  
Look! it's nothing just  
I'm curious to ask  
Is there something more to that?

If you took the chance  
To pick apart the way that you believe  
You wouldn't always stare at me  
You wouldn't pass and never speak  
Close your eyes and think of me  
Like I think of you  
Feels like I already know you  
I have the slightest of clues  
About ya

It can't be  
It can't be  
It can't be all that you want  
I know, I know, this  
Can't be all that you want  
I think, I think, I know this  
Can't be all that you want
