

# IOU

Kilo Kish

You know what's up  
Been feeling a little down on my luck  
You wanna come cheer me up  
You wanna shine a light on us?  
You want to feel the moon bleed rust  
A metallic crush  
Of our native tongues  
You want to be the burning sun  
I want to be the only one

I want your love  
You owe me some  
You want my love  
I owe you one

I can be the one you want  
The bed's a mess  
But your mind's made up

You see me  
I know that you see me  
Digging deeper  
Know you feel it  
Whenever you're with it  
You can get it  
Just don't let me go

The girl  
Let the girl sing what she wants  
The girl  
The girl's a machine
