

NOT YOUR ACCESSORY

Kilo Kish

When you feeling bad
You throw them Jordans on
Before I was around
Nobody rang your phone
They can take a balloon
To inflate the dome
But when it's time to build
I know that no one's home
Can I sit around your friends
That I don't like?
You say it's my attitude
I'm not nice
We don't see these
People in the daylight
How is that your cousin
After one night?

Turn me on when you want
Pretend like you're enough
Feel like the clothes you wear
Can't use me when you want me
No no accessory
Act like a friend of mine
Then hang me on the line
'Til you find what you like
Can't use me when you want me
No, no
You're not my lover
Smile fake undercover
Yeah you tried to buy this
Duplicate this
Outside it
When you dress her up
She looks real, huh?
She feels real, huh?
Think they set you up
A bad dealer
A bad deal

On and on and on
Cause you're culture king
You wanna get around
And do designer things
You the type to leave your friend outside
My girls like the army
No man left, left right
The way you put us first
Was so convincing

But you would save yourself
And then exploit me
You should
Call up baby Jesus
Get your heart right
Us being sewn together
Been a bad ride

Turn me on when you want
Pretend like you're enough
Feel like the clothes you wear
Can't use me when you want me
No no accessory
Act like a friend of mine
Then hang me on the line
'Til you find what you like
Can't use me when you want me
No, no
You're not my lover
Smile fake undercover
Yeah you tried to buy this
Duplicate this
Outside it
When you dress her up
She looks real, huh?
She feels real, huh?
Think they set you up
A bad dealer
A bad deal

I don't care
About your light
Your angle
Your fit
Your gloss
Your likes
Yeah I wish we were
Just friends right
Still friends right
Real friends right
Fame
Money
Game
You've fallen
Fame
Money
Gain

You're not my lover
Smile fake undercover
Yeah you tried to buy this
Duplicate this
Outside it
When you dress her up
She looks real, huh?
She feels real, huh?
Think they set you up
A bad dealer
A bad deal
