

OVER NOW

Kilo Kish

Hand in your pocket
In search of an option
I begged you to cage me, ah
Lead by an example you said you could
Can't even look where you led me, huh?

Lighten up
Lighten up
Lighten up
It's over

Lighten up
Lighten up
Lighten up
It's over

Now, are you through guessing
Cause' you know you're right
It's over
Now, keep overstepping and you lose your right
It's over
Now, I want to hold you
Know I need to
Gnaw this to pieces
I stand convinced this is no longer mine
It's over

Far awayness
Can you feel it in the way I lie?
If I break this
Will I find there's glitter inside

Lighten up
Lighten up
Lighten up
It's over

Lighten up
Lighten up
Lighten up
It's over

Now, are you through guessing
When you know you're right
It's over
Now, keep overstepping and you lose your right
It's over
Now, I want to hold you
Know I need to
Gnaw this to pieces
I stand convinced this is no longer fine
It's over

Heaven has this problem, problem
Heaven has a way of calming
All the bitter seas I drown in

Heaven has this problem, problem
Heaven has a way of solving
All the bitter seas I drown in

Lighten up
Lighten up
Lighten up
It's over

Lighten up
Lighten up
Lighten up
It's over

Now, are you through guessing
Cause' you know you're right
It's over
Now, keep overstepping and you lose your right
It's over
Now, I want to hold you
Know I need to
Gnaw this to pieces
I stand convinced this is no longer fine
It's over
