

## Spark

Kilo Kish

Beads of sweat, under kept  
Swept beneath the black edge  
Self control, my regret  
Can't compete with that edge  
Colors fall dark, dark  
Cradle the spark  
Until you have fire

This time, I really lost it  
Don't know where you are  
Let's hope I come across it  
In the water  
This time, I really lost it  
Don't know where you are  
Let's hope I come across it  
Water, water, oh, oh

Creeping both feet in  
Through a kaleidoscope lens  
Needing new reason  
To descend into panic again  
Colors burn dark, dark  
Cradle the spark  
Until you make fire

This time I really lost it  
Don't know where you are  
Let's hope I come across it  
In the water  
This time I really lost it  
Don't know where you are  
Let's hope I come across it  
In the water

Colors burn dark, dark  
Cradle the spark, spark  
Colors burn dark, dark  
Breath to the spark, spark

I know what's next  
Never pressed when I'm on my own  
'Til they confess, hear your voice  
Through the radio  
You've been the kink in my mind for a long while now  
You've been the king in my mind  
Now its time to go

This time I really lost it  
Don't know where you are  
Let's hope I come across it  
In the water  
This time I really lost it  
Don't know where you are  
Let's hope I come across it  
In the water, oh, oh

I think I let go

Feel my feet in the waves  
Kill the shore  
I think I let go  
Feel my feet in the waves  
Now I know
