

STAR POWER (LA NIGHTMARES)

Kilo Kish

(Oh no) She came to L.A
Speaking dewy tongues
(Oh no) Sprinkle the magic curse
Make me your girl
(Oh no) Erase her face for
Every pretty word
(Oh no) There's more to claim
You've got to wait your turn

Time to spend
They make it intense
They make it so intense
Time again
To face your audience
Now face your audience
Who's counting the price as we go?

How many evils have you chasen?
You're watching that ball go round
And it's so close that you can taste it
Do you have star power?
How many nights you lie awakened?
Just watching the world go round
And it's so close that you can taste it
Do you have star power?

(Oh no) Nodded and waved
And now it's time to cash in

(Oh no) Buttoned her up but now
Her seams are scratching
(Oh no) She can parade
As if she's safe without them
(Oh no) They shift their shape
But now she's locked
And bounded

Time to spend
They make it so intense
They make it so intense
Time again
To face the consequence
Now face the consequence
Just counting the strikes as we go

How many evils have you chasen?
You're watching that ball go round
And it's so close that you can taste it
Do you have star power?
How many nights you lie awakened?
Just watching the world go round
And it's so close that you can taste it
Do you have star power?

Really? You love me?
Say it again
You love me?
