Kilo Kish

Ready  
I want  
I don't want to panic  
I want-I  
I don't want to panic  
I want  
I don't want to panic  
I want-I  
(Be sure you're information is accurate)  
I don't want to panic

If the sun don't shine  
If the river don't run  
Then how far did we come?  
Thy will be done

If the sun don't shine  
If the river don't run  
Then how far did we come?  
Thy will be done

I miss you of course  
Here's my  
Postcard from the mountaintop  
You're so pleasantly  
Driving down  
Forgetting why you came  
You said  
You would bring me  
All the way?  
I look 'round and I wonder?

If the sun don't shine  
(The way)  
If the river don't run  
(I miss you)  
Then how far did we come?  
(The way)  
Thy will be done

I miss you of course  
See me  
Speeding down  
A summer road  
As I'm cruising around the curves  
Assuming its my place  
Afraid my  
Teeth cut for a world away

I tried to lose the scent  
But I, invited this  
Oh, me  
I didn't think  
Only speaking out of turn  
Impossible I'd learn  
Sucking the gristle and bone  
Oh, please

The devil speaks  
I get this feeling I can  
Speed him off the road  
Impossible at first  
But lesson to lesson I learn

Oh! Oh! Oh!  
That around me  
Was it really nothing?  
Was it really nothing?  
Was it really nothing?

'Course the radio is on  
Don't know how to shut you off
