

The One In My Life

Kim Bum-Soo

I've been thinkin' of
The things you've given to me
And the thing I've given to you
I want to know this

It's been 20 years
Many things happen to me
I still don't know what it was

You said I should stay with you
I didn't realize that
I thought I could do anything
Without your help

And I thought the happiness
That's given from the world
Is bigger and greater
Than the one from you

Now I realize the truth
Is that you are the one in my life
I wanna know you more
And i wanna love you more

I won't keep it inside of me
I will say it to the world
That you're the one in my life my lord
You are the one in my life Jesus

I've been thinkin' of
The things you've done to me
And the thing I've done to you
To speak the truth

I didn't really that you
Were walking with me
Although you were always there

You said I should hear your words
And what you tell me to
No matter how hard it is to follow

Then I didn't realize that
It is the happiest way
I didn't know how much
You my love life

Now I realize the truth is
That you are the one in my life
I wanna know you more
And I wanna love you more

I won't keep it inside of me
I will say it to the world
That you're the one in my life my Lord
You are the one in my life Jesus

I wanna tell you this
Because I'm still so weak
There will be times
That I could fall down
Whenever I'm in need
Lord please you come to me
And help me up, lift me up, again

Now I realize the truth is
That you are the one in my life
I wanna know you more
And I wanna love you more

I won't keep it inside of me
I will say it to the world
That you're the one in my life my Lord
You are the one in my life Jesus

Now I realize the truth is
That you are the one in my life
I wanna know you more
And I wanna love you more

I won't keep it inside of me
I will say it to the world
That you're the one in my life my Lord
You are the one in my life Jesus

I can give it up if you
Always be the one
I can give it up you my Jesus

I can give it up if you
Always be the one
I can give it up you my Jesus
