

Love's Holiday

Kim Burrell

God speaks
Can you hear Him?
Can He hear you?
I hope He hears me
I hope you're listening, God

Would you mind if I touch, if I reach out to hold you tight til
l the morning light
Would you mind if I said how I felt so tenderly again 'cause I
never felt

Felt this way in my heart before
God's love has found a way in my heart tonight

Would you mind if I looked into your eyes until I'm hypnotized
while I lose my pride
Would you mind if I love you until you are satisfied with me ag
ain

'Cause I never ever felt, felt this way in my heart before
Because love has found His way in my heart tonight

Once again 'cause I never ever felt, felt this way in my heart
before
Because love, love has found His way in my heart tonight

Love, would you mind
Yes, because love has found a wind
Love, would you mind
Love, would you mind, would you mind
Love looked at me, love, can you see, I am satisfied with you
Love, I am satisfied with you
Look into my eyes, I'm hypnotized
There goes my pride, I know you don't mind, don't mind, you don
't mind
