

Working For Your Good

Kim Burrell

It's working for your good
Tears misunderstood
He will supply every need
And He will give you peace
It's working, working for your good

It's working for your good
Pain misunderstood
He can heal your mind
Turn your darkness into light
Yes, it's working, working for your good

Depression in the land
But there's power in His hand
I know you may be down
But He'll turn it all around
It's working, working for your good

It's working for your good
Tears misunderstood
He will supply every need
And He will give you peace
It's working, working for your good

It's working for your good
Pain misunderstood
He can heal your mind
Turn your darkness into light
Yes, it's working, working for your good

Depression in the land
But there's power in His hand
I know you may be down
But He'll turn it all around
It's working... [ad libs]

But it's working
Working for your good
