

## All About Time

Kim Carnes

You can drive your money to a big tall bank  
Flaunt your colors and pull your rank  
But sooner or later, it's an empty tank  
That brings you round to find  
Baby, it's all about time  
Ain't it just all about time

People thinking that the clock don't see  
When they waste their time so casually  
But when it all comes down to a memory  
That's when you'll realize  
Baby, it's all about time  
Ain't it just all about time

You don't know when your number's ever coming up  
Remember when we were falling in the summer fields  
Life goes on and you can't just leave it up to luck  
Better keep an open eye 'cause baby, it's all about time

You and me, seems we never change  
Look out the window and watch the children play  
They grow up and then they move away  
And so it goes down the line  
Baby, it's all about time  
Oh ain't it just all about time  
Ain't it just all about time
