

# Changin'

Kim Carnes

Just before you go could we talk a while  
Maybe my ol' face could make you smile  
I know you haven't said all that's on your mind  
We always used to keep an open line

People keep on changin'  
So everyone's got to bend  
I'll keep waiting  
Love will come around again  
You've already broken me down  
And feelin's the way I do  
I'm gonna miss you I'm gonna miss you

Try to hold the sun when it's sinking low  
Try to keep away the lonely night  
Try to make you stay when you wanna go  
And nothin' that I say can make things right

People keep on changin'  
So everyone's got to bend  
I'll keep waiting  
Love will come around again  
You've already broken me down  
And feelin's the way I do  
I'm gonna miss you I'm gonna miss you

Just before you go could we talk a while  
Maybe my ol' face could make you smile  
Guess every dream is just like sand in the hand  
Hold it too hard and it's gone

People keep on changin'  
So everyone's got to bend  
I'll keep waiting  
Love will come around again  
You've already broken me down  
And feelin's the way I do  
I'm gonna miss you I'm gonna miss you
