

Moodstreet

Kim Mitchell

traffic's got me
caught in the middle
i just gotta get off this mood street
i want
one-car-solitaire-on-a-lightning-fast-road
where-life-just-ain't-one-long-wide-load
if i can't get there in my car
then i'll go there in my mind
i just drift and dream in my room on wheels
i just drift and dream
in my soundproof room on wheels
out of mood street
i-don't-mind-gettin'-nowhere-on-time
gotta big drive gotta big smile
man you do some big thinking when on mood street
i want
one-car-solitaire-on-a-lightning-fast-road
where-life-just-ain't-one-long-wide-load
i'm gonna put it in gear without any fear
i'm gonna let this road develop like my thinking
i just drift and dream in my room on wheels
i just drift and dream
in and out in and out of mood street
it's all just one street away
