

Space

Kim Mitchell

Live alone
Shave in my car
Driving it back to the zeroes
I don't know about me in your eyes
Don't wanna be your hero
So if you talk in your sleep tonight
Don't mention my name 'cause it makes me uptight

But you never give me any
Space
I've got to get back into my own face
Lonely doesn't care when I stay out late
You never gave me any space

Tell myself I'm doing fine
You showed me yours and I've showed you mine
Now I'm saving it up for a rainy day
I've got a hole in my pocked
I was the sidewalk
And you were the gum
You stuck to me baby
You melted the sun

But you
Never gave me any space
I've got to get back into my own face
Lonely doesn't care when I stay out late
You never gave me any space

When I'm free
When I'm gone
Cut my lawn
I won't send you no postcard
D-o-a
M-i-a
A-k-a
You won't find me in no phonebook
I'm a bird
I'm a plane
I'm a drone chewing off this ball and chain
But you never gave me any

Live alone
Shave in my car
Driving it back to the zeroes
I don't know about me in your eyes
I don't wanna be your hero
So if you talk in your sleep tonight
Don't mention my name 'cause it makes me uptight

But you never gave me any
Space
I've got to get back into my own face
Lonely doesn't care if I stay out late
You never gave me any space

You never gave me any space

You never gave me any space
