

BAIT

Kim Petras

If you want my love, baby say it to my face
If you want me hard, you can pull up by my place
If you're feeling lucky, I can throw the dice away
Tell me what's it take make you wanna bite the bait
Make you bite the bait

Viva forever, I've never been better
My feet they don't touch the ground
I got the venom to take you to heaven
And I'm 'bout to bite down down
Savor the memory, of what you said to me
I turn your head right 'round
You're not a friend to me you're not my enemy Destiny?
Let's find out

What's it gonna take

If you want my love, baby say it to my face
If you want me hard, you can pull up by my place
If you're feeling lucky, I can throw the dice away
Tell me what's it take make you wanna bite the bait
Make you bite the bait

Tell me what's it take
What's it gonna take
Bite the bait
You can bite the bait
Make you bite the bait

They call me Serpentia
I got the house and the car
Key to your heart
'Cause I'm a star, I'm a star
You're gonna find out back to the bar
I set the bar high, you've never been there before
I can get low, haunt you wherever you go
Haunt you wherever you go

What's it gonna take

If you want my love, baby say it to my face
If you want me hard, you can pull up by my place
If you're feeling lucky, I can throw the dice away
Tell me what's it take, make you wanna bite the bait
Make you bite the bait
Tell me what's it take, what's it gonna take
Bite the bait
You can bite the bait
Make you bite the bait

Yeah, you know you wanna

If you want my love, baby say it to my face
If you want me hard, you can pull up by my place
If you're feeling lucky, I can throw the dice away
Tell me what's it take make you wanna bite the bait
Make you bite the bait

Tell me what's it take
What's it gonna take
Bite the bait
You can bite the bait
Make you bite the bait

Tell me what's it take
What's it gonna take
Bite the bait
You can bite the bait
Make you bite the bait
