Die For You

Kim Petras

upside down
I never could get rid of it
I am alone
Home is where you are tonight
And I can't stand alone
I'm only happy when you're by my side
You are ???
Even if were miles apart
And I will not just ???
And if this day is my last
??? have to hurry back
'Cause you're not able to come back
Even if

Lights flash and sky fades
The world'll never be the same
No
Hurricane and people scream
But it all doesn't mean a thing
No
I can't live up while you're so far away
No
I would do anything
Because I would be dying for you
I would die for you
I would die for you

I would climb the highest mountain just for you
??? death zone
If it's the last thing I cold do
It will take time
But in the end ???
???
Lay all day by your side
???
Even if were miles apart
And I will not just ???
And if this day is my last
??? have to hurry back
'Cause you're not able to come back
Even if

Lights flash, sky fades
The world'll never be the same
No
Hurricane, people scream
But it all doesn't mean
And when the sea comes closer
It's highest wave try to take my breath away
And when the hurricane is coming
And takes me miles and miles away
And when the sky turns black
I will never be able to see you face again
There's no reason to stay ???
So baby I would die

Lights flash, sky fades
The world'll never be the same
No
Hurricane and people scream
But it all doesn't mean a thing
No
I can't live up while you're so far away
No
I would do anything
Because I would be dying for you

Lights flash, sky fades
The world'll never be the same
No
Hurricane and people scream
But it all doesn't mean a thing
