

Never loved nobody harder  
Never, ever felt stronger  
Thought that we would last forever

Give me something believe in  
Thought that you were all I needed  
Look at me, I'm still breathing

I used to cry over you, baby  
I've wasted all this time

But now I got a ice-cold heart  
VVS's's this is on  
The kinda ice I want  
Kinda funny how the money can replace the love  
So numb, I don't feel it inside me  
So dumb, I believed you really liked me  
'Cause of you now my heart is so icy

Now I'm on a higher level  
I ain't ever gonna settle  
Plenty offers on the table

Maybe I don't even hate ya  
Really you did me a favor  
Turned my heart into a glacier, yeah

I used to cry over you, baby  
I've wasted all this time

But now I got a ice-cold heart  
VVS's's this is on  
The kinda ice I want  
Kinda funny how the money can replace the love  
So numb, I don't feel it inside me  
So dumb, I believed you really liked me  
'Cause of you now my heart is so icy

(Yeah)

But now I got a ice-cold heart  
VVS's's this is on  
The kinda ice I want  
Kinda funny how the money can replace the love  
So numb, I don't feel it inside me  
So dumb, I believed you really liked me  
'Cause of you now my heart is so icy

'Cause of you now my heart is so icy  
So numb, I don't feel it inside me  
So dumb, I believed you really liked me  
'Cause of you now my heart is so icy  
Icy
