

Chase Wild Horses

Kim Richey

Back in the day, I used to run my share of wild
Back when the nights went on forever
I tried to race my demons down the longest mile
I ran my best, but they ran better

I don't chase wild horses any more
I'm all done running from the way I was before
Things I've done that I ain't proud of
I can't even stand the sound of
I still hear them knocking at my door
I don't chase wild horses anymore
I don't chase wild horses anymore

Outside my window, there's a world that I know well
The names have changed, but not the faces
And I've already tasted everything they've got to sell
I'm staying out of their good graces

'Cause I don't chase wild horses any more
I'm all done running from the way I was before
Things I've done that I ain't proud of
I can't even stand the sound of
I still hear them knocking at my door
I don't chase wild horses anymore
I don't chase wild horses anymore

Back in the day, I used to run my share of wild
Back when the nights went on forever
And I don't chase wild horses any more
I'm all done running from the way I was before
I don't chase wild horses anymore
I don't chase wild horses anymore
