

Come Around

Kim Richey

I don't miss the good old days
I've learned a lot since then
I've changed my ways
I'm not bothered by those things that used to get me down
Only when you come around

I don't carry much regret
We all hold something that we'd just as soon forget
I remember like it was today
The love we found
Every time you come around
Every time you come around

Well, I'm the first to say I should forget you
And I wish I could
But sometimes wishes don't come true

Doesn't seem like much to ask
To live a life that isn't caught up in the past
But there's really no place else on earth
For me right now
I wish you'd come around
I wish you'd come around
Why don't you come around
