

## Drift

Kim Richey

Here we stand at the end of the day  
Together again

No one knows lessons we've learned  
Places we've been  
How could you measure the distance, my friend?

Drift with me, we'll go faraway  
Beyond make believe, straight on to brighter days

Hang your coat on the back of the chair  
Don't go just yet  
We've been runnin' since the day that we met

Quiet now, there's nothin' to say  
That needs to be said  
You know I love you, my friend

Drift with me, we'll go faraway  
Beyond make believe, straight on to brighter days

Drift with me, we'll go faraway  
Beyond make believe, straight on to brighter days

Drift with me
