

London Town

Kim Richey

Take me down to London town
Travel card on the Underground
Pretty girl on a bridge on a cloudy day
Lost my way in London town

I saw green and I saw gold
In between falling walls of snow
Chasing shadows on a hill on a cloudy day
Lost my way in the green and gold

If only you were here we could make it together
I miss you when I'm gone, you make everything better
Wishing I'm back, wishing I'm back with you

Boardwalk on the Brighton Beach
I saw a light but it was out of reach
A fishing boat on a wave on a cloudy day
Lost my way on the Brighton Beach

If only you were here we could make it together
I miss you when you're gone, you make everything better
Wishing I'm back, wishing I'm back with you

I don't wanna stop, I don't wanna stay
I don't wanna stop, I don't wanna stay
I lost my way in London town
I lost my way in London town
