

## Turn Me

Kim Richey

I can see the stars fool the lights  
Maybe we could leave them all behind tonight  
Find a place where nobody goes  
Quiet place where nobody knows we're still awake

Turn me slowly, say it only if you can  
And words won't matter, you only need to understand  
That I'm not going anywhere without you

Why you start to hum when you touch me?  
I'm gentle as they come when I wanna be  
This is not the time for regrets  
We have seen the worst and the best put to the test

Turn me slowly, say it only if you can  
And words won't matter, you only need to understand  
I'm not going anywhere without you  
Without you, without you

Turn me slowly, say it only if you can  
Words won't matter, you only need to understand  
I'm not going anywhere without you, without you
